Registered Developers' discount purchasing scheme for Acorn hardware and development software

Registered Developers may purchase Acorn products at a discount for development purposes. Any items purchased are supplied on the understanding that they are **not for resale**.

Items on pages one and two of this price list are supplied from the Acorn warehouse. Developer-only items on page three are supplied by Developer Support. Registered Developers are asked to send separate orders and payment for Developer-only items.

Procedure:

Written orders on the provided Registered Developer Order Form (each accompanied by payment) should be submitted to **Developer Support, Acorn Computers Ltd, Acorn House, Vision Park, Histon, Cambridge, CB4 4AE**

- Cheques should be made payable to Acorn Computers Ltd.
- For orders below £100, there is a small order surcharge of £5 plus VAT (i.e. £5.88 inc VAT)
- Your Registered Developer number **must** be quoted on all orders

NB Cheques are not cashed until orders are fulfilled or part-shipment occurs.

We regret that we cannot accept cheques drawn on overseas banks nor can we take credit card payments. Payments from **overseas Developers** may be made in the following ways:

1. A Sterling cheque drawn on a British Bank

2. Bank transfer to the following account provided that the Developer agrees to pay the charges:
Barclays Bank, Benet Street, Cambridge, Account 70052663, Sort Code 20-17-19.
Please inform Developer Support **on your order form** if you are paying by bank transfer.

3. Eurocheque for amounts up to £700

Where a computer system includes extended warranty provision this applies to UK Developers only. For overseas Developers shipping and insurance is included in the Developer price.

If there are items which appear in Acorn's Retail Price List but not in the Developers' Discount Price List and which you require, please contact Developer Support for a Developer price.
