

# 4 SUPERB PROGRAM PRODUCTS

## GAMEMAKER

### animation made simple

The animation package for both BBC MICRO and ELECTRON.

DESIGN multi-coloured shapes and figures in varying sizes from 2 x 1 pixels up to 16 x 24 pixels using our superb menu-driven designer program. It includes an animation tester and a file library system.

This designer program is one of the best on the market but is only the start of GAMEMAKER's facilities.

CONTROL your images from your game or animation program with 11 new simple 'BASIC' like commands: (\*GMP — paint image). Just \*RUN an image file at the start of your program and these commands are available through hidden machine code routines that the designer program places in each image file. They provide High-Speed Movement, Automatic Animation, Collision Detection and many other features.

LEARN quickly how to use GAMEMAKER whatever your skill level via a 44 page User Guide and a FREE teaching program that shows examples of various animation and image effects.

Supplied on tape the GAMEMAKER package includes a program to create a disk copy.

Available now  
GAMEMAKER2 — the Mode 2 version **£12.99**    GAMEMAKER5 — the Mode 5 version **£12.99**

Special offer of both versions for only **£17.50**

## JUKIT

### JUKI 6100 printer toolkit

The complete toolkit ROM for all users of the superb JUKI 6100 daisywheel printer.

Contains:—

\* A page processor that allows single page word processing with full use of every JUKI 6100 facility. On screen you see the page exactly as will be printed including spacing (10/12/15/PS), underlining, bold, shadow, half-lines, graphic mode etc.

Extra facilities include double height characters and the ability to mix spacings within a document (e.g. PS and 10) and the ability to process pages 'landscape', turned sideways.

\* A typewriter program with all the above facilities but no screen display, you have direct control of the printer from the keyboard. This converts your system into a powerful electronic typewriter which is ideal for those messy small jobs such as envelopes and insertions etc.

\* A screen dumper that allows you to dump part or all of the screen in all modes.

\* Printer drivers for View and Wordwise.

This 16K ROM is a new HOLLY product.

Available August 1985

**£25 inc.**

## WINDOW

### Sideways RAM Information System

A private viewdata system inside your BBC MICRO.

This new information system ROM enables you to keep all your vital data in Sideways RAM, available at a key press 'whilst another job is running'.

Yes — interrupt a job, look up your data, then press another key and the machine continues where it left off.

When you are busy programming, word processing, printing, accounts etc, you often need to reach for a reference book. WINDOW turns your Sideways RAM into your own instant reference database.

WINDOW is a viewdata system (like CEEFAX/ORACLE). You create TELETEXT pages of your own data with the designer and combine the pages into WINDOW files. At switch on you load the files you wish depending on how much Sideways you have or allocate to WINDOW.

On interrupt an index p100 shows all pages available. Key the page number and access is immediate, press another key and your job is 'unfrozen' and continues.

Many functions including: NOTEPAD — write a memo. ALARM CLOCK — set an interrupt alarm. BULLETIN BOARD — an automatic page display system.

Works (with slight variations) with all Sideways products and is Tube compatible (not Torch 2nd proc). Supplied as a 16K ROM and 40/80 disk (8271 compatible).

Available now **£35 inc.**

West Yorkshire BD16 3JQ.

## ROMH

### a ROM to rule all ROMs

The perfect ROM manager for full control of the power of your sideways ROM/RAM area.

Contains:—

\* A Status page showing the title of all ROMs and their positions (ROM sockets).

\* An Isolator to enable you to 'switch off' any ROM. This avoids collisions between ROM commands and is maintained even through Soft or Hard Breaks.

\* A Selector to choose and hold a particular ROM socket.

\* A Copier to load into a ROM from normal RAM or to load normal RAM with the contents of a ROM.

\* An Analyser to peek into a ROM header showing title, copyright message and all service calls answered along with the locations jumped to.

This 8K ROM is another new HOLLY product.

Available August 1985

**£15 inc.**
