

MASTERcopy

... the selective copier you need for the BBC MASTER computer ...

Dramatically reduces the time taken to copy unprotected discs,

DFS to ADFS, ADFS to DFS, DFS to DFS, ADFS to ADFS

using one or two, single- or double-sided drives.

An 84K RAM buffer enables many files to be copied in one pass with the minimum of disc swapping, and directories are created automatically as required. Files of any length are handled.

Supplied on disc, MASTERcopy runs from sideways RAM and is invoked with a * command. The program re-installs itself in sideways RAM when copying is done, ready for later use.

The ROM image supplied can be used to blow your own EPROM too, for use in the MASTER's cartridge slots.

Typical time to copy all 31 files DFS to ADFS is under 2 minutes!

£12.95 on disc – £14.95 for ROM version (including postage etc.)

For the Model B and Master:

DESIGN 7 – the best Mode 7 designer on the market. Design any screen quickly and easily, from simple menus up to full viewdata-standard screens. Saves screens as automatically-numbered files (for screen dumps etc.), or will convert them to BASIC for use in your own programs. Hundreds in use. Only £8.95 incl. p&p.

DESFAX – a teletext emulator – now you can run your own videotex system with pages you design yourself. Up to 200 pages stored on an 80 track disc, or 100 on a 40 track. Incorporates a powerful carousel facility with animation effects. Built-in graphics dump.

Beats all of the other 'FAX' systems for ease of use and versatility. Supplied on 2 discs. £24.00 incl. p&p.

Please indicate whether 40 or 80 track discs are required.

ECONET versions of DESIGN 7 and DESFAX are available.
