MICROVITEC 895
cub
COLOUR DISPLAYS

CUB 895 is the 14" High Resolution option from the Microvitec CUB range of colour displays.

Incorporating a .31mm dot pitch high resolution tube with 895 addressable pixels horizontally by 585 vertically. CUB 895 transforms the performance of Business and Scientific Systems.

Who needs CUB 895?

In the Office:-

businessmen, accountants, architects. CUB 895 presents graphs charts and figures with startling clarity and brings proposed designs to life.

In the Lab:-

CUB 895 analogue monitors provide the pure, clear and precise colour reproduction that is vitally important for scientific and research work.

In Industry:-

CUB 895 makes the ideal choice for applications requiring detailed process control and mimic diagrams. CUB 895 is designed for professional people with specialist requirements.

Choice of Cabinet

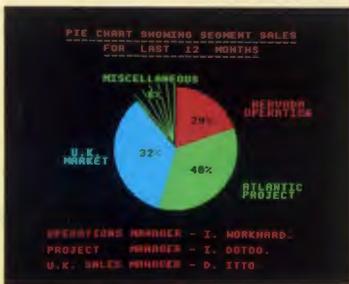

CUB 895 is available in either the stylish LS (Structural Foam Cabinet) or the more robust MS (Metal Cabinet).

Choosing your CUB 895

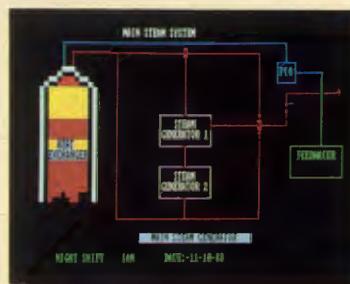

CUB 895 is available with a variety of interfaces covering a wide range of applications. If your computer is not included in the table below please contact our Sales Office. We will be pleased to help you with your enquiry.
