

**ALCC**

# ASSOCIATION OF LONDON COMPUTER CLUBS

The ALCC exists to help the many computer clubs in the Greater London area. The main aims are:

- to promote hobby and recreational computing
- to co-ordinate activities
- to help new Clubs start up
- to organise exhibitions, seminars and meetings

If you are a computer hobbyist, you'll get more out of it by going to your local Club. They usually have a range of activities, talks and discussions. If you already have a micro, you'll be able to swap ideas with others. If you haven't, you'll have a chance to find out about all the computers on the market and see which suits you best. Either way, you will hear about any discounts which the Club or the ALCC has been able to negotiate.

There is a general agreement amongst affiliated clubs that members of one club are welcome to attend meetings of another club on the same terms as that club's own members. You will find a list of currently affiliated clubs inside this leaflet. Further information about the clubs can be obtained from the contacts quoted. There are also club details, including current meetings programmes, on the ClubSpot 810 pages of Prestel starting at page 810212. Prestel terminals are now available in many public libraries at no cost to the user.

Computer clubs operating in Greater London are invited to apply for affiliation to the ALCC. Secretaries of affiliated clubs are kept informed of the activities of the other clubs and of the ALCC itself. Clubs can also apply to ClubSpot 810 to have their details on Prestel, and to edit these themselves.

Further information about the Association can be obtained from:

Mrs Patricia Spilsbury, ALCC Administrative Office, 7 Barrington Road, Bexleyheath, Kent, DA7 4UN. Telephone 01- 303 8849
